

15 February 2021 staff update

With the country in Alert Level 2 for the next few days, the Agency is taking a number of steps to keep staff and site visitors safe.

While at the Pike River Mine site, our workforce will keep 1 metre apart where possible, scan the QR code whenever on site, continue to practise good hand hygiene (including the use of sanitiser), wear masks on any public transport (and in the Agency vans and trucks) , and stay home if unwell .

Office based staff will continue to work from home.
