Risk Assessment Workshop

In September the Pike River Recovery Agency is holding a workshop at the New Zealand Mines Rescue Centre facility in Rapahoe, to risk assess the three options for re-entering and recovering the Pike River Mine drift.

Members of the public are welcome to attend the following sessions, as observers:

Tuesday 11 September, 8.15am – 10.15am

Friday 14 September, 8.15am – 10.15am

Monday 17 September, 8.15am – 10.15am

Thursday 20 September, 8.15am – 10.15am

There will be limited space in the main workshop room. A room adjacent will be set up with a closed circuit screen, so people can watch and hear the technical expert advisors, agency staff, and others involved with the process as they plan ways to identify, minimise or eliminate risks around re-entry. People will be invited in on a first come/first served basis. No bookings required.

Please be aware that there are limited parking spaces available at the facility, and preference will be given to workshop participants and extended Pike River families.

The Agency plans to post a summary of progress online every few days during the workshop. To view these summaries, and to sign up for regular updates about the Agency's work, visit www.pikeriverrecovery.govt.nz.

The Agency is about to undertake its major workshop to look at the risks associated with each of the three re-entry options. We're inviting members of the public to come along.

New documents published

Kia ora and thanks for your interest in Te Kāhui Whakamana Rua Tekau mā Iwa—Pike River Recovery Agency.

This email is to let you know that [new documents](#) are now available to view on our website.
